

Niyak
Live your life 360°

360massage

About us

360massage

At 360massage, we craft wellness as carefully as design. Inspired by timeless healing traditions and shaped by modern engineering, our massage chairs turn daily recovery into an elegant ritual.

At 360massage, every piece is customized to your style and space, because the closer you feel to what surrounds you, the deeper you relax and the faster you recover. From intelligent body scanning to soothing heat and thoughtful materials, 360massage blends performance and beauty to help you live more fully, every day.

Vision

Live your life 360°

At 360massage, we believe recovery is the bridge between energy and possibility. Our vision is simple: to help people live two days in one by restoring the body faster, calming the mind deeper, and renewing focus for what comes next. Through design that blends technology with intention, we make wellness a natural part of daily life.

Mission

A complete wellness tool

Our mission is to create a tool that cares for both body and mind. We continue to refine our technology to turn every 360 chair into a complete wellness tool, supporting not just comfort, but measurable well-being. With innovations like integrated blood pressure, heart rate, and oxygen monitoring in our newest model, Niyak, we move closer to our mission.

A costume chair, as unique as you

Refelction of your style

At 360, we deliver a chair shaped to your taste and space. Before each one leaves our hands, it is customized to reflect your style, your character, and the design of your home.

Your chair is unique because
YOU ARE UNIQUE!

Elegance in every curve

Where design meets recovery

Seen from any angle, Niyak reflects precision, comfort, and balance. Every line is shaped with purpose, to embrace the body naturally, support perfect posture, and bring luxury into everyday wellness.

Fingerprint sensor

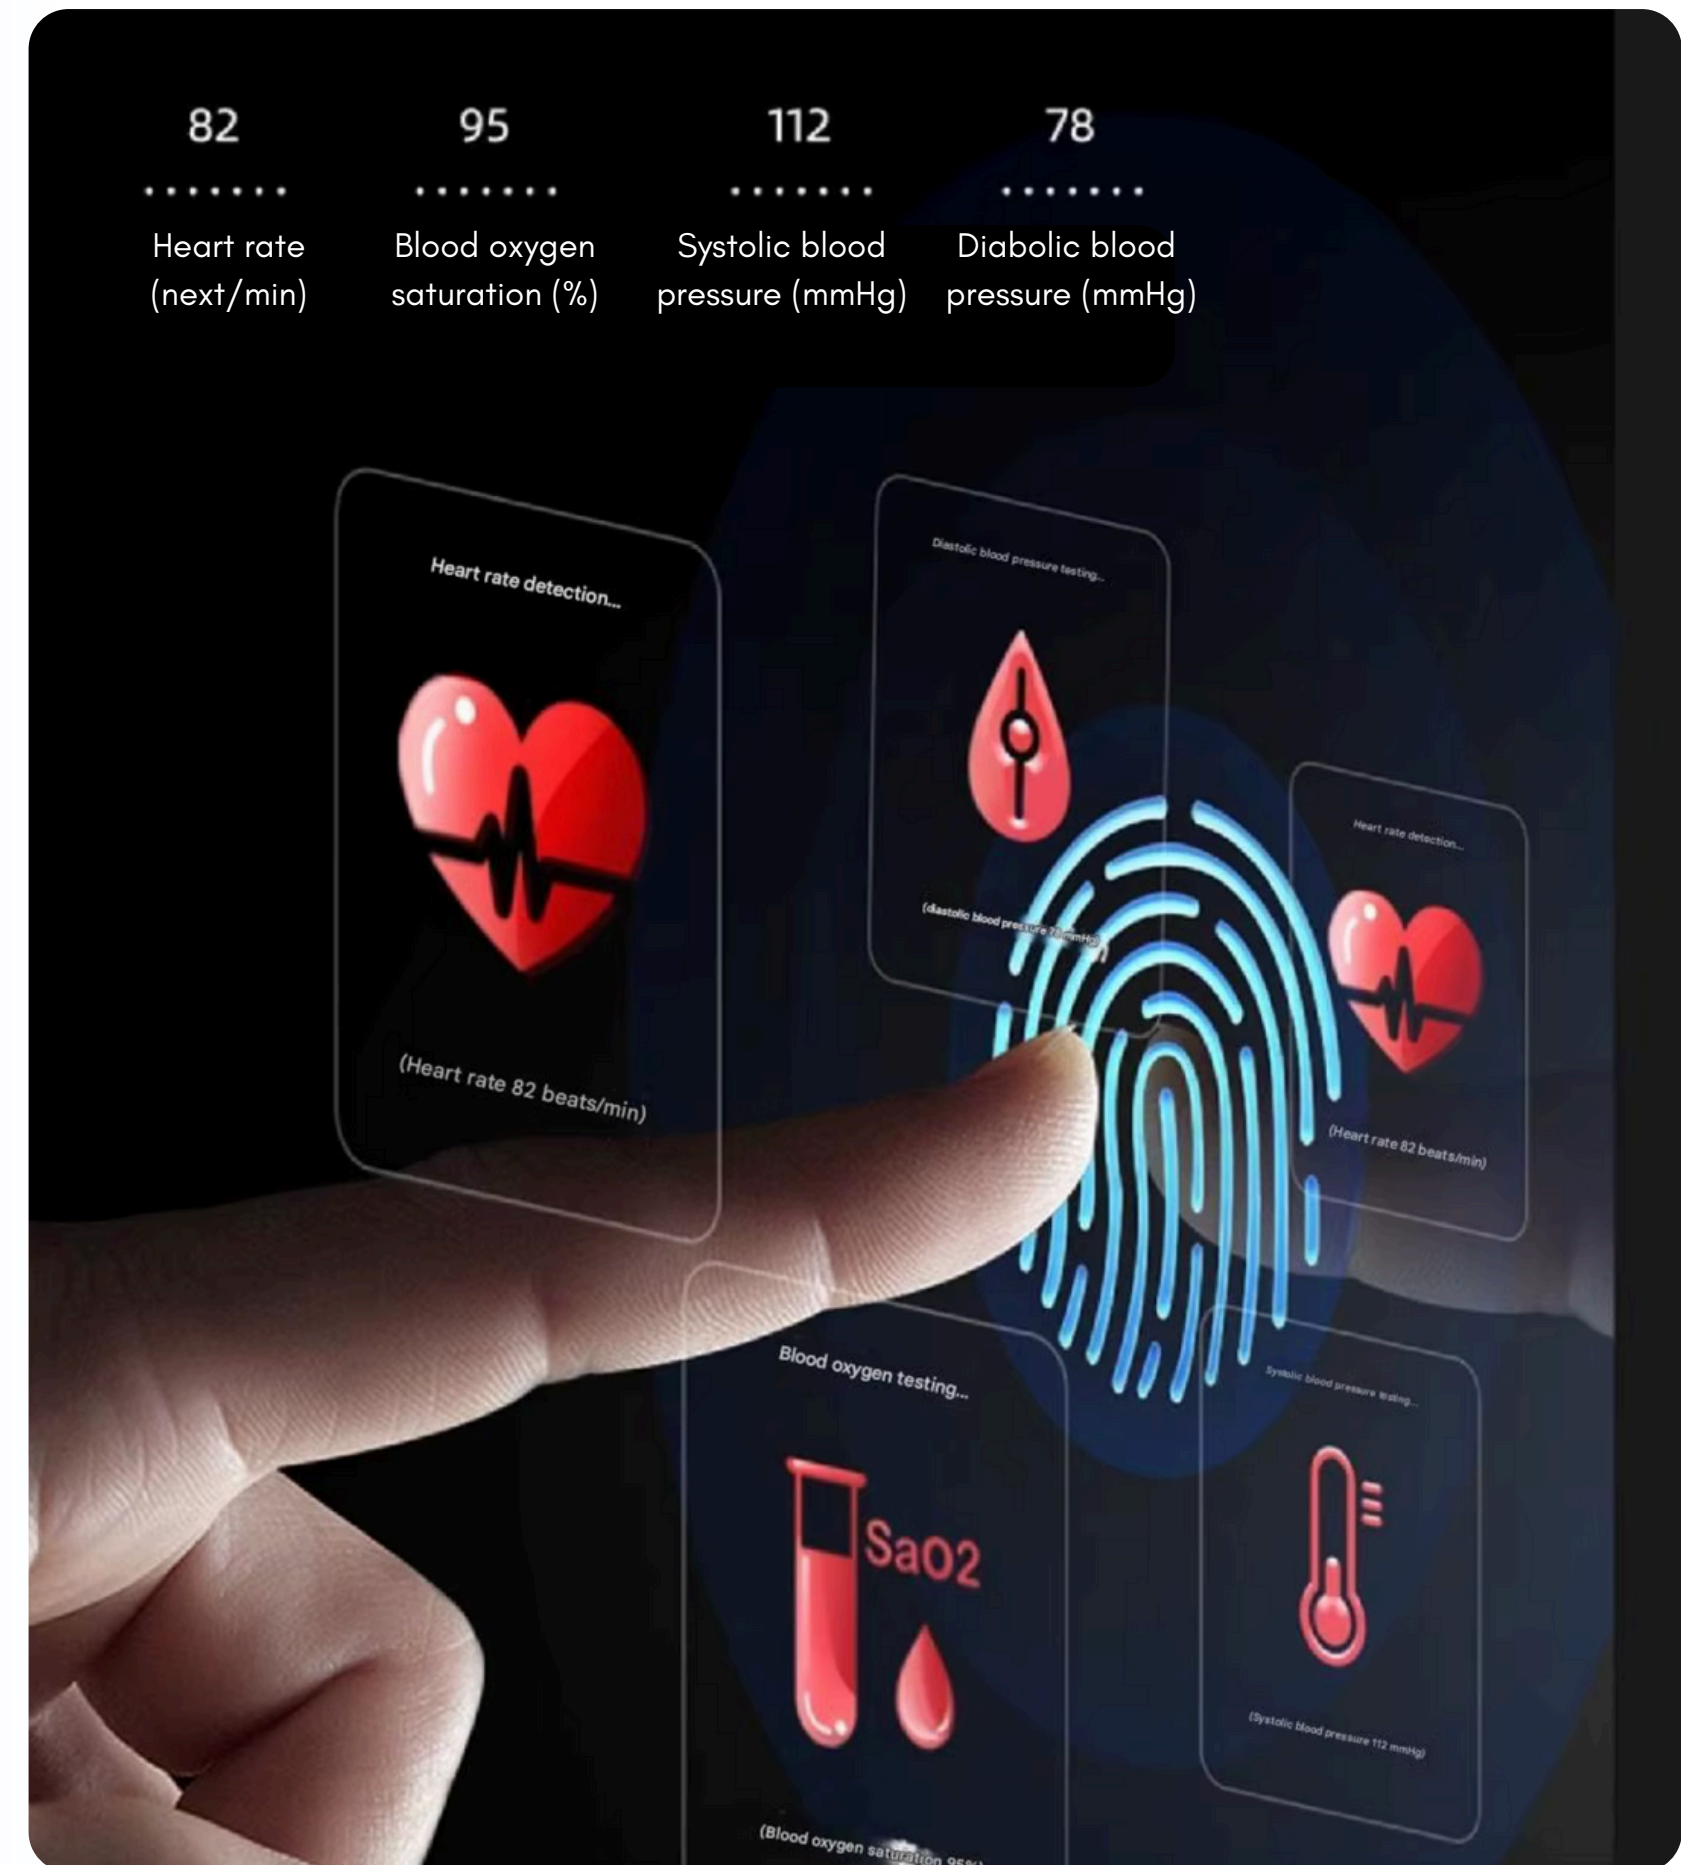

(Wellness you can measure)

Niyak's fingerprint sensor brings healthcare insight into everyday comfort.

Niyak's built-in sensors monitor

- blood pressure
- heart rate,
- and oxygen levels,

helping you and your loved ones track health while you rest.

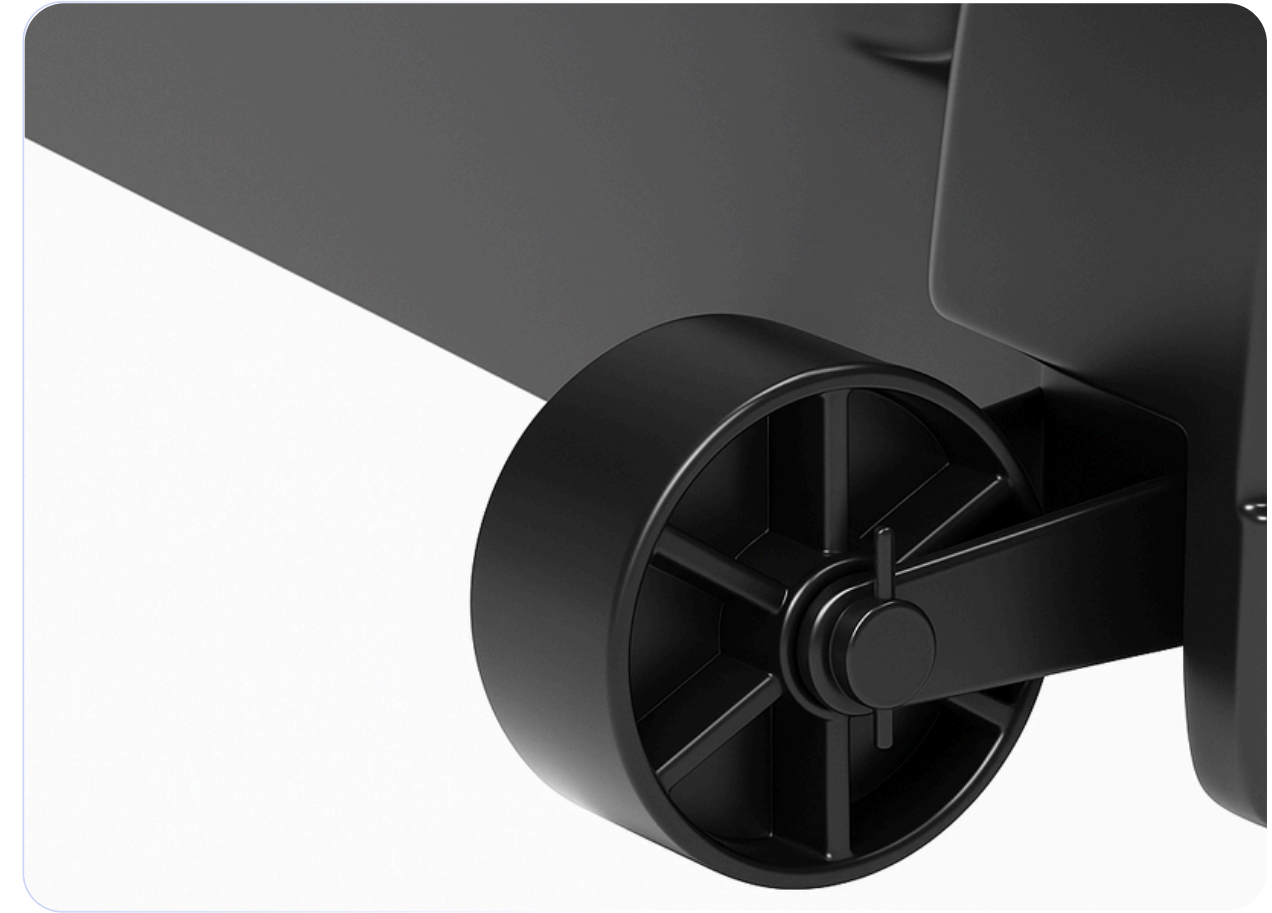

Luxury texture

(A finish crafted to be seen)

Niyak is refined with a gently textured painted surface that catches the light softly and elevates any interior. It's subtle, elegant, and made to feel as good as it looks.

Smooth mobility wheels

(Easy to move)

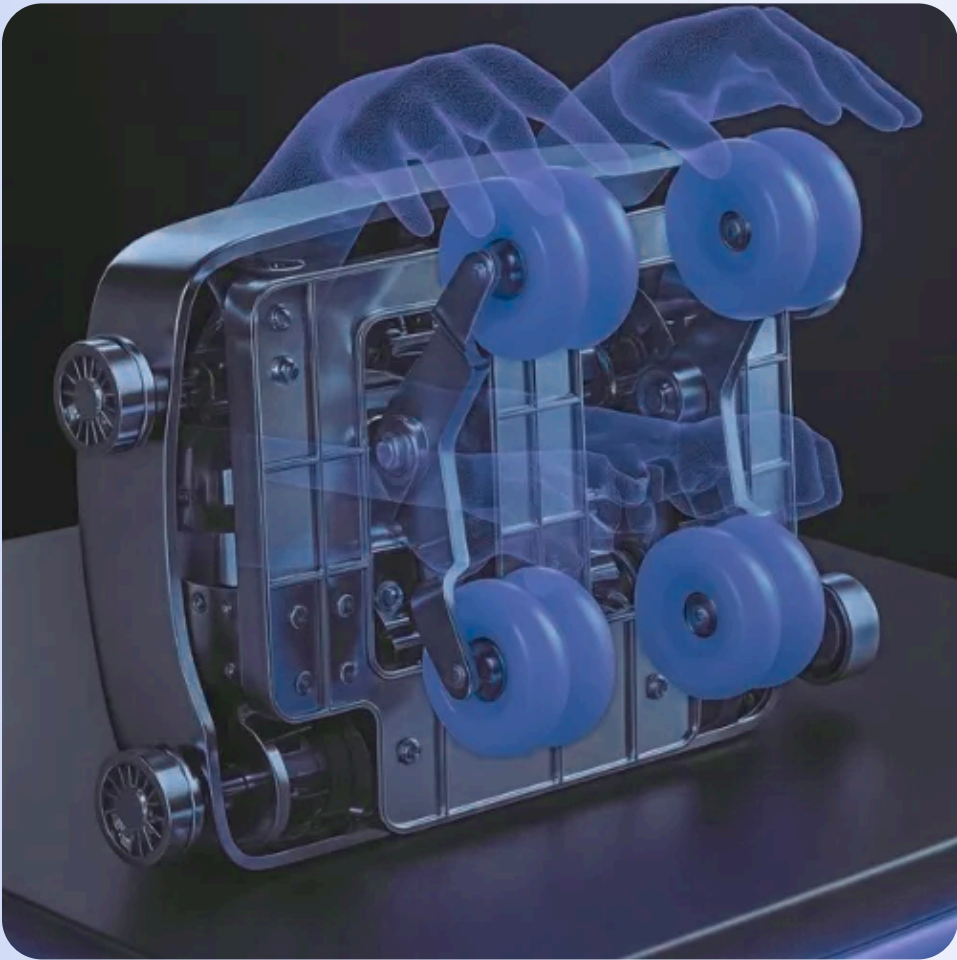

Discreet wheels are built into the base, allowing you to reposition Niyak smoothly and quietly—so your space can evolve as naturally as your routine.

Premium material

(Luxury you can feel)

Wrapped in soft, skin-friendly leather, Niyak blends elegance with practicality. The material is breathable, durable, and smooth to the touch, crafted to comfort your skin as much as your muscles.

4D massage thechnology
(Precision that feels human)

Niyak’s 4D system moves with natural rhythm and depth, recreating the touch of a professional therapist for a perfectly balanced, lifelike massage.

Bluetooth connection
(Your music, your moment)

Connect your device and unwind to your favorite playlist. Built-in speakers turn every massage into a private, immersive experience.

Zero gravity feature

(Inspired by space)

Niyak's Zero gravity mode reclines your body to the optimal angle where legs are slightly elevated above the heart, relieving spinal pressure and improving circulation. This position mimics the feeling of weightlessness, allowing your muscles to fully relax while your body experiences deep, effortless recovery.

Heat Therapy

Warmth that heals from within

Niyak's built-in heat therapy targets two essential areas, the waist and calves, where tension often hides. Gentle, consistent warmth relaxes deep muscles, improves circulation, and enhances the effectiveness of every massage. It's not just soothing—it's a restorative experience that melts fatigue and brings your body back into harmony.

Body scanning

Intelligence that understands your body

Niyak's smart body scanning system detects your shoulders, spine, hips, and legs to map your exact shape. It then adjusts the rollers and airbags automatically, placing every movement with precision. The result is a perfectly aligned massage that fits your body completely, no matter your height, posture, or build.

Product catalogue of Niyak

Control your Niyak with 3 ways:

- **AI voice control**

Your words, your comfort. Simply tell Niyak what you need: “start zero gravity,” “activate relax mode”, and it responds instantly, no hands required.

- **Smart monitor**

See it, touch it, feel it. A sleek digital display lets you browse programs, adjust intensity, and tailor every massage with a touch.

- **Luxury roller dial**

Elegance in motion. Fine-tune every detail through a smooth, ergonomic roller, precision control made beautifully simple.

Full-body air massage

Precision pressure,
everywhere you need it

Niyak features a complete network of airbags placed across the head, shoulders, arms, and legs, working together in perfect rhythm. Each air pocket inflates and releases in gentle waves, improving circulation, easing muscle tension, and delivering a balanced full-body embrace. It's not just a massage, it's a sensation of lightness, comfort, and renewal from head to toe.

Smart body size detection

Tailored for every height

Niyak adapts to everyone. With smart body detection and an extendable footrest, it adjusts to different heights and builds. So every member of the family can enjoy a perfectly tailored massage.
