Recovery, taken seriously.

Auren is made for people who treat recovery as part of their routine, not a luxury for special occasions. It pairs deep, intelligent massage with a calm, refined design that belongs in a beautiful room.

Beneath its smooth, sculpted shell sits a full recovery system — 4D robotic massage, walking-motion foot rollers, full-body air compression and gentle heat. Add built-in aromatherapy and surround sound, and a session becomes something you look forward to, not just something that works.

PROGRAMS

A centrepiece for any room.

Auren is a large, statement chair designed to anchor a living room, study or private suite. Its glossy, sculptural shell looks as refined switched off as it feels switched on.

CHAMPAGNE

Warm & inviting

Soft champagne tones that sit beautifully in bright, elegant spaces.

BLACK & GOLD

Bold & dramatic

Deep gloss black with gold accents for a confident, modern statement.

Better than **human hands.**

Auren's 4D massage continuously adapts its pressure and movement as it works, so the massage feels responsive and natural rather than mechanical.

+ What 4D means

On top of moving up, down, in and out, the rollers vary their speed and rhythm in real time — the fourth dimension that makes each stroke feel alive.

+ ROVO walking motion

Robotic leg technology mimics the motion of walking, gently activating muscles and circulation while you stay seated.

+ Extended SL-track

A long curved track follows your spine from neck to glutes in one smooth, continuous path.

+ Deep foot rollers

Dedicated rollers work the soles of your feet — one of the most satisfying parts of any session.

The weightless experience.

ZERO GRAVITY · 3 ANGLES

Float, don't sit

Zero-gravity recline lifts your legs toward heart level and spreads your weight evenly across the chair. With strain lifted off the back and joints, muscles relax fully and the massage reaches deeper. Choose from three recline angles to find your perfect rest.

3

DEEP

Heat that softens muscles

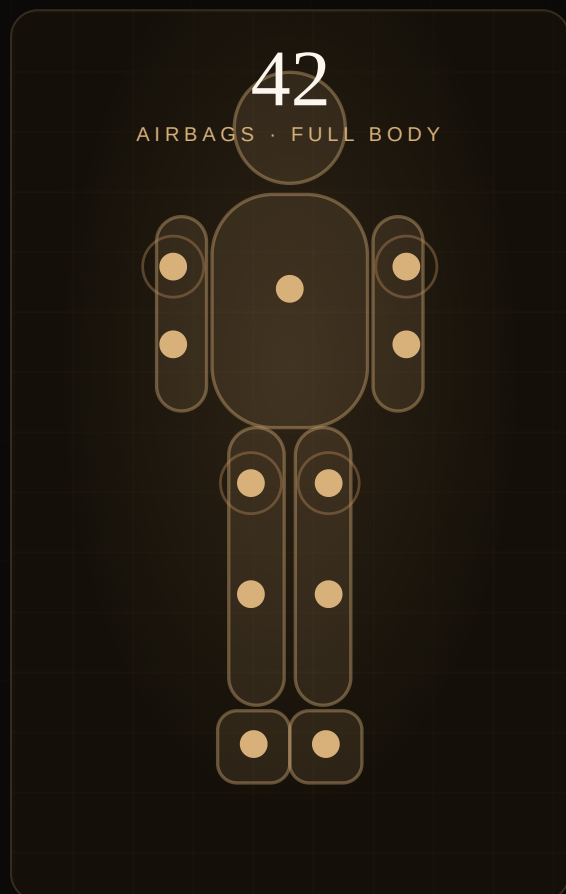

Targeted heating across the **back and legs** gently raises muscle temperature, helping your body relax, stretch and recover more efficiently.

BURGUNDY

A full-body embrace.

From your shoulders to the soles of your feet, Auren wraps your whole body in balanced, coordinated compression and motion.

42 full-body airbags

- Air chambers gently squeeze and release across shoulders, arms, hips and legs for deep, stabilising comfort.

Walking-motion foot massage

- ROVO rollers move beneath your soles like a therapist walking out the tension.

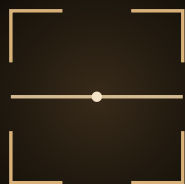

Leg stretch & hip relief

- By relaxing the piriformis muscle, Auren helps your hips move more freely and comfortably.

Size adaptation

- Auren adapts to your height and gently stretches your legs, giving taller bodies the room they need.

Your body, mapped.

SMART BODY SCAN

It measures you first

Before the massage begins, Auren scans your body to adjust massage depth, range and positioning — for balanced, personalised recovery that fits your exact shape.

VOICE CONTROL

Just give the orders

Control Auren hands-free with simple spoken commands. Say “turn on heating” and it does — no reaching for buttons or the tablet remote.

SMART TABLET & BLUETOOTH

Everything in reach

A clear tablet controller puts every program and setting at your fingertips, and Bluetooth connects in seconds — no extra app to install.

A final layer of calm.

Auren doesn't just work your muscles — it sets a mood. Two senses beyond touch turn a massage into a complete escape.

AROMATHERAPY

Scent that soothes

Built-in aromatherapy gently diffuses calming scents as you recline, adding a sensory layer that deepens relaxation and makes each session feel like a spa ritual at home.

BLUETOOTH SURROUND SOUND

Wrapped in sound

Built-in surround speakers stream your music, meditations or calming sounds over Bluetooth, so the audio surrounds you and the outside world fades away.

Twelve ways to recover.

Auren comes with 12 preset programs, each a complete massage designed for a different recovery need — and full manual control whenever you want to fine-tune.

PRESET PROGRAMS

Plus full **manual control** — pick the technique, area and intensity yourself.

WHAT THE PROGRAMS ARE FOR

- 1 Relax & unwind**
Slow, soothing sequences to calm the body after a long day.
- 2 Deep recovery**
Firmer, targeted work for tired, knotted muscles.
- 3 Full-body restore**
Head-to-toe coverage in a single, complete session.
- 4 Neck & shoulders**
Focused relief for the areas that hold the most tension.
- 5 Quick refresh**
A short reset when you only have a few minutes.

Your home. Your taste. **Your Auren.**

Auren ships in **13 default colours**. For something truly your own, the online designer lets you customise **three separate zones** — the body, the interior, and a secondary footrest colour — so no two chairs need look alike.
