

FIRST HEALTHCARE ROBOT IN THE U.S.

WELTRON

The most advanced massage chair in America — ROVO robotics, 5D recovery and a design unlike anything else on the market.

Everything about Weltron.

A complete guide to the Weltron robotic massage chair — its technology, its design, the colours you can choose, the full specifications, and everything you need to know before and after it arrives at your door.

01	The Vision	What Weltron is and why it exists
02	Built Around You	Who Weltron is made for
03	Robotic 5D Massage	ROVO technology & precision motion
04	Zero Gravity & Heat	Recline, circulation and warmth
05	Full-Body Care	Airbags, foot massage & leg stretch
06	Smart & Aware	Body scanning, health check, voice
07	22 Programs	Auto modes & manual control
08	Colours & Custom	Design your own Weltron
09	Specifications	Every technical detail
10	Ownership	Price, delivery, warranty & returns
11	FAQ	Your questions answered

A new chapter for recovery.

Weltron is more than a massage chair. It is a healthcare robot — built to make recovery intelligent, immersive and genuinely forward-thinking.

Where ordinary massage chairs repeat the same fixed motions, Weltron understands your body and responds to it. Robotic precision, real-time adjustment and bold, one-of-a-kind design come together in a single piece that looks as advanced as it feels. It is the flagship of 360° massage, and the first of its kind in the United States.

ROBOTIC MASSAGE

“We set out to engineer wellness through innovation and bold design — and Weltron is the result.”

360° MASSAGE

Made for every body, and every space.

Weltron adapts to who you are and where you are. At home it's a private recovery suite; at work it's a reset between meetings. Tall or smaller framed, it adjusts to fit you.

AT HOME

Zero-gravity calm

Deep relaxation in the comfort of your living room.

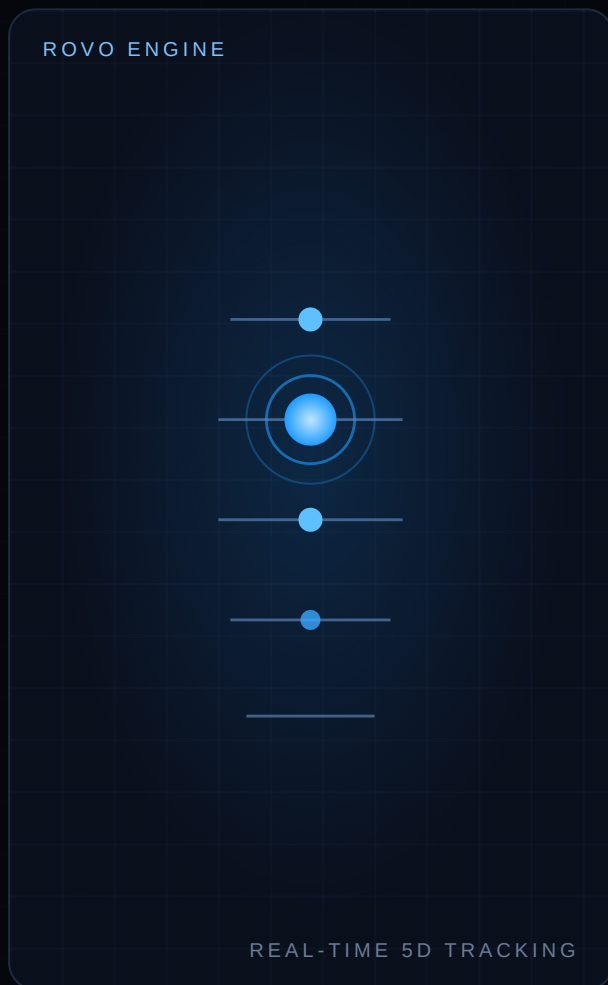

AT WORK

Reset & refocus

A few minutes of recovery between demanding hours.

Precision in every motion.

At Weltron's core is ROVO robotic technology and a 5D massage system — the engine that makes it feel less like a machine and more like a skilled pair of hands.

+ What 5D means

The rollers move up, down, side to side, in and out — **plus** they adjust speed and depth in real time. That fifth dimension is what makes each stroke fit your body.

+ Reads your tension

Weltron senses how tight you are and matches the pressure — gentler where you're sensitive, deeper where you need it.

+ Extended SL-track

A long curved track follows your spine from neck to glutes in one continuous path, so no area is skipped.

+ Dynamic armrests

Weltron's signature wing-like armrests move in sync with the massage — a feature that's one of a kind in the U.S. market.

Recline beyond relaxation.

ZERO GRAVITY · 3 ANGLES

Weightless support

Inspired by how astronauts sit at launch, zero-gravity recline lifts your legs to heart level and spreads your weight evenly. That takes pressure off your spine and joints, so the massage reaches deeper while your body does nothing but rest.

RECLINE

3

DEEP

Height adjustment for taller users

Weltron extends to give taller bodies full coverage from head to calf — nobody sits cramped.

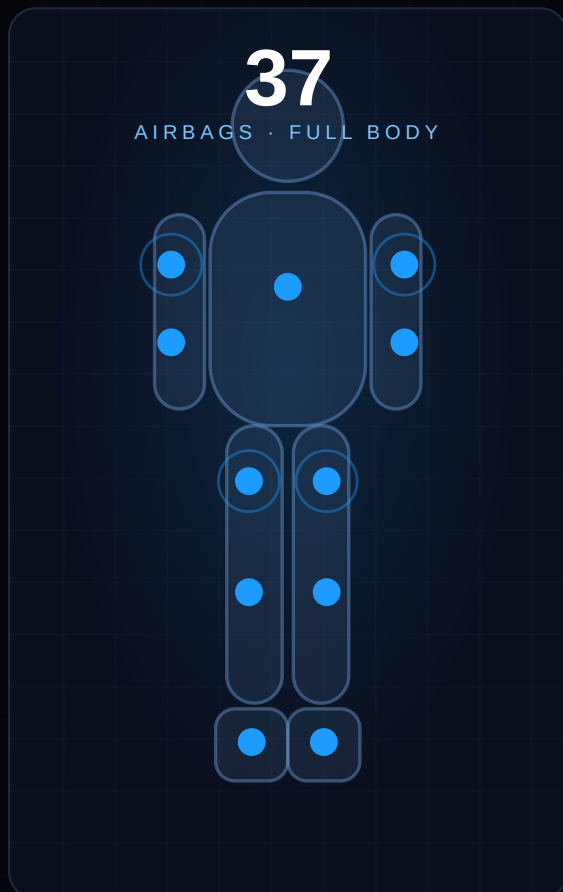

HEAT THERAPY

Warmth where it counts

Built-in heating targets your **waist and calves** — the areas that hold the most tension. Gentle warmth boosts circulation and softens tight muscles, so every stroke lands deeper and recovery feels faster.

A full-body embrace.

From the top of your shoulders to the soles of your feet, Weltron wraps your whole body in coordinated, controlled motion.

Walking-motion foot massage

- Rollers move beneath your soles like a real therapist walking out the tension, not just vibrating.

37 full-body airbags

- Air chambers gently squeeze and release across shoulders, arms, hips, legs and feet to ease stiffness.

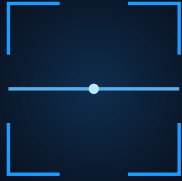

Leg stretch & rolling

- Multi-point compression and rolling decompress tired legs and lengthen tight muscles.

One pair of rollers

- Twin rollers trace your spine in unison for balanced, symmetrical pressure.

Built around your anatomy.

SMART BODY SCANNING

It measures you first

Before the massage begins, Weltron scans your shape and height to map your shoulders, back and hips — so every roller and airbag lands exactly where it should.

HEALTH CHECK

Recovery you can track

Built-in heart-rate monitoring keeps you aware of your body as you unwind, turning each session into a moment of intelligent recovery rather than just relaxation.

SMART VOICE CONTROL · ENGLISH

Just say it

Control your whole massage by voice in English — no reaching for buttons or screens. Connects over Bluetooth, with no extra app to install.

One button, twenty-two experiences.

Weltron comes with 22 built-in auto programs — each a complete, ready-made massage for a different mood or need. Prefer to take control? A full set of manual modes lets you target any area at any intensity.

22

AUTO PROGRAMS

Plus a wide range of **manual modes** — choose the technique, area and intensity yourself.

Variable intensity

Dial each massage from feather-light to deep and firm — gentle on a tired evening, powerful after a hard workout.

WHAT THE PROGRAMS ARE FOR

- 1 Stress & unwind**
Slow, soothing sequences to calm the body at the end of the day.
- 2 Fatigue recovery**
Energising work for tired muscles after long hours or travel.
- 3 Deep soreness**
Targeted, firmer relief for stiff backs, shoulders and necks.
- 4 Full-body restore**
Head-to-toe sessions that cover every zone in one go.
- 5 Quick reset**
Short programs for a fast recharge between tasks.

Your space. Your style. Your Weltron.

Weltron ships in **7 ready-to-go default colours**. Want something truly yours? Use the online designer to customise **both the exterior body and the interior** — and here's the best part: custom or default, **the lead time is the same** (around 30 days).

IN STOCK

Free worldwide shipping included

Free worldwide shipping

Weltron ships free, anywhere in the world, delivered right up to your door.

Easy auto-install

Weltron largely sets itself up. Installation is simple and quick — no specialist needed.

1-year warranty

Covered for a full year, with free spare parts for genuine peace of mind.

90-day easy returns

Not fully satisfied? Return it within 90 days (about 3 months), hassle-free.

~30 days

Typical lead time from order to arrival — the same whether you choose a default colour or a fully custom design.

Good to know.

Q Is Weltron hard to install?

Not at all. It largely installs itself — setup is easy and quick, with no specialist required.

Q How long until it arrives?

Around 30 days from order to delivery — the same for default and custom colours.

Q Can I really customise both inside and out?

Yes. Choose from 18 body colours and 4 interior colours in the online designer, in any combination.

Q Does it fit taller people?

Yes. A height-adjustment feature extends coverage so taller users get a full head-to-calf massage.

Q Is there an app to download?

No app needed. Weltron connects over Bluetooth and responds to English voice commands.

Q Is it noisy?

No. Weltron is engineered for silent operation, so nothing disturbs your relaxation.

Q What if I change my mind?

You have 90 days (about 3 months) for an easy, hassle-free return if you're not fully satisfied.

Q What does the warranty cover?

A full 1-year warranty, including free spare parts.

Q What power does it need?

It runs on 110–240V, 50–60Hz at 120W — suitable for standard outlets worldwide.

Q Where does heating apply?

Targeted heat warms the waist and calves to boost circulation and relax tight muscles.
