> *"An elegant, soft design that helps you relax and find peace, every day."*

Elegant in **any room.**

Ayla is designed to feel at home in beautiful, modern spaces. Soft lines and a refined silhouette make it a calming presence — whether it’s switched on or simply part of the room.

BLUE

Cool & serene

A calm, contemporary tone that brings quiet sophistication to a modern space.

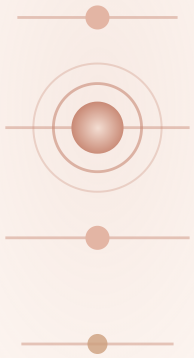

BLACK

Quietly bold

An understated, elegant black that blends effortlessly into any interior.

Graceful depth in **every movement.**

4D ENGINE

REAL-TIME, RESPONSIVE MOTION

Ayla’s 4D massage adjusts rhythm, pressure and flow in real time, creating a smooth, natural experience that feels beautifully tailored to your body.

+ What 4D means

Beyond moving in every direction, the rollers gently vary their speed and rhythm as they go — the fourth dimension that makes each stroke feel soft and lifelike.

+ Reads your body

Paired with body scanning, Ayla adapts its depth and range to suit your shape, so the massage always feels considerate, never harsh.

+ Automatic leg extension

The leg rest adjusts to your height on its own, giving your whole body balanced, comfortable support.

+ Multi-zone sequencing

Massage techniques flow smoothly from one area to the next, like a single, unhurried session from a thoughtful therapist.

A weightless moment, **just for you.**

ZERO GRAVITY

Float, don't sit

Zero-gravity positioning gently lifts your body into a balanced, floating posture. With weight spread evenly and your legs raised toward heart level, pressure eases off your spine and your muscles can relax more deeply — the massage simply feels better.

A soft touch of warmth

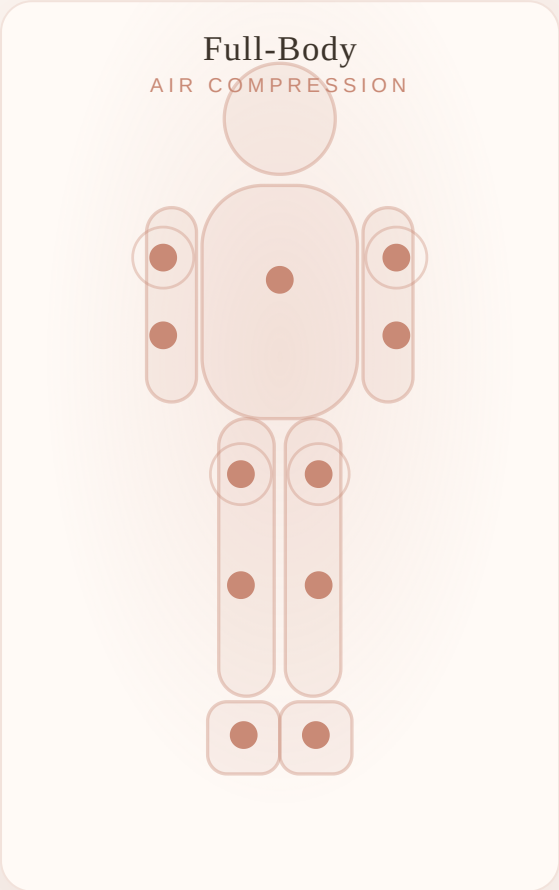

Gentle heat therapy soothes your **lower back and legs**, helping muscles loosen naturally and making each massage feel deeper and more comforting.

PINK · ROSE GOLD

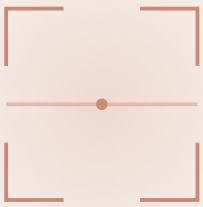

A gentle embrace, **head to toe.**

Soft airbags wrap your body in comforting pressure, helping you unwind naturally and feel supported throughout every session.

- **Full-body air compression**
  Soft, rhythmic airbags surround your shoulders, arms, hips and legs with comforting, gentle pressure.
- **Multi-zone sequencing**
  Compression flows smoothly from one area to the next, so your whole body unwinds in a natural rhythm.
- **Automatic leg extension**
  The leg rest adjusts to your height on its own, cradling your legs in just the right position.
- **Gentle, supported feel**
  Every motion is tuned to feel soft and considerate — supportive comfort from head to toe.

Thoughtful at **every moment.**

BODY SCANNING & HEALTH CHECK

It understands your body

Ayla gently scans your shoulders and posture before each session, adjusting rollers and airbags to match your shape. Built-in health-monitoring sensors let you check in on your body as you relax.

SAFETY, BUILT IN

Safe, smooth, worry-free

Eight anti-pinch sensors keep every movement gentle and secure, while rear sensors detect obstacles behind the chair and pause it when needed — so you can relax completely.

GENTLE VOICE CONTROL

Just say what you need

Ayla responds instantly to simple spoken commands, so you can adjust your session without lifting a finger — and stay fully relaxed throughout.

07 — EFFORTLESS CONTROL

Everything, **within reach.**

An intelligent touchscreen tablet puts your whole massage at your fingertips — or simply use your voice. Auto programs for easy days, full manual control when you want it your way.

Healthcare check

See a gentle read-out of your body and track how you feel as you relax.

Auto programs

Ready-made sessions for relaxation and recovery — one tap and Ayla takes over.
